

# Qualitative Health Research: Introductory Module

<b>Description</b>	This module provides an introduction to qualitative health research. Participants will learn about the scope of qualitative health research, various research designs, qualitative data collection techniques (e.g. semi-structured interviews, in-depth interviews, focus group discussions, participant observation), the principles of qualitative data analysis and the key criteria for evaluating qualitative research papers.
<b>Objectives</b>	By the end of the course, participants will have an understanding and class room experience of conducting qualitative health research and be able to read and judge qualitative research papers. Participation in this course is a prerequisite for moving on to the advanced module in qualitative health research.
<b>Dates</b>	<b>Thu 26 Jan – Fri 27 Jan 2017</b>
<b>Eligibility</b>	Open to PhD students of SSPH+ Public Health program; other students and external participants are welcome to apply for limited spaces.
<b>Course Structure</b>	Presentations, guided discussions, group work and small assignments during and after the course.
<b>Assessment</b>	Preparatory assignment, active participation during the course days, follow up assignment
<b>Credits</b>	<b>0.75 ECTS</b> Preparation Work: 3h, Contact: 12 h, Follow Up Work: 5 h (1 ECTS corresponds to approx. 30 hours workload)
<b>Facilitator</b>	<b>Prof. Brigit Obrist</b> Institute of Social Anthropology, University of Basel Münsterplatz 19, 4051 Basel, Switzerland
