

Introduction to the Statistical Software R

Description

This course is a practical introduction to R, a free open-source software environment for statistical computing. Besides an introduction into the software, the following topics will be covered: data import and export, data manipulation, statistical analysis, graphical representation and advanced programming concepts as conditional branching and loops. Students should bring their own laptop for the practical work.

In contrast to other statistical software solutions, R is designed around a true computer language. This has the implication that R is characterized by an enormous flexibility that enables the user to perform sophisticated statistical procedures or simulations. R might be less intuitive to scientists without prior programming skills. However, there are some tools available to make the user's life easier as graphical user interfaces and editors with syntax highlighting.

Participants should have basic statistical knowledge. Programming skills are not required.

Objectives

By the end of this 2 day course, students will be able to use R for statistical analysis and graphical representation. They will be aware of the common mistakes and will get familiar with additional tools to use R more efficiently.

Dates

Tue 21- Wed 22 February 2017

Eligibility

Open to PhD students of SSPH+ public health program; other students and external participants are welcome to apply for limited spaces.

Participants must bring their own laptops.

Course Structure

Lessons and practical exercises.

Assessment

Active participation in the exercises, homework assignment.

Credits

0.75 ECTS

Preliminary Work: 1 h, Contact: 14 h, Wrap-Up Work: 7 h

(1 ECTS corresponds to approx. 30 hours' work)

Facilitator

Dr. Jan Hattendorf, Swiss Tropical & Public Health Institute

SSPH+PhD Program:

Program Coordination Ann Walser

Academic Lead Prof. Matthias Egger
Prof. Thomas Abel

PhD Program in Public Health

Location	Swiss Tropical & Public Health Institute, Socinstr. 55a, 4002 Basel, Seminar Room 3 (map)	
Course Fees	SSPH+ PhD Students	0.—
	Other PhD students	225.—
	Other academics	637.50
	Other	937.50
Registration	Please register online on our website	
Deadline	21 January 2017	
Max. Attendance	18 (preference is given to SSPH+ PhD Students)
