

Introduction to Statistical Software Stata® and Electronic Data Capture Software REDCap

Description

This course is divided in two parts: Part 1 is a practical introduction to Stata®, a statistical analysis software (www.stata.com). The following topics will be covered: data import and export, data manipulation, statistical analysis, graphical representation and an introduction on loops (repetitive tasks). We will also show how to use additional user written commands that are not “official Stata”. Students should bring their own laptop for the practical work.

Part 2 is a short introduction to the electronic data capture software REDCap, a secure web application for building and managing online surveys and databases. The course offers a basic introduction to clinical data management and covers the basic steps involved when building up a small study database.

Participants should have basic statistical knowledge. Programming skills are not required.

As Stata is a commercial software product, we will make a temporary licence available for the course.

Objectives

By the end of part 1, students will be able to run a typical STATA project: import data from text or Excel files, perform data manipulation (including using labels), save manipulated data, perform simple statistical analysis and graphical representation of the data. By end of part 2, students will be able to setup a simple survey with the basic types of questions for the data entry with REDCap.

Dates

25 - 27 November 2020

Eligibility

Open to PhD students of SSPH+ public health program, to other students and other interested people.

Participants must bring their own laptops.

PhD Program in Public Health

Course Structure	Lessons and practical exercises.										
Assessment	A little project (exam) will have to be completed after the course. The exam will be similar in scope and difficulty to the practical exercises of the course.										
Credits	<p>1 ECTS</p> <p>Preliminary Work: 1 h, Contact: 21 h, Wrap-Up Work: 7 h</p> <p>(1 ECTS corresponds to appr. 30 hours' work)</p>										
Facilitators	<p>Dr. Adrian Spoerri, MPH PhD, SwissRDL, Institute of Social and Preventive Medicine (ISPM), University Bern</p> <p>Yves Bochud, MSc, CTU, University Bern</p>										
Location	ISPM Bern, Mittelstrasse 43, 3012 Bern, room tba										
Course Fees	<table border="0"> <tr> <td>SSPH+ PhD Students</td> <td>30.- CHF</td> </tr> <tr> <td>PPHS PhD Students</td> <td>30.- CHF</td> </tr> <tr> <td>External MD/PhD Students</td> <td>300.- CHF</td> </tr> <tr> <td>External Academics</td> <td>850.- CHF</td> </tr> <tr> <td>Other Participants</td> <td>1250.- CHF</td> </tr> </table> <p>(The cost scheme depends on the Number of ECTS. Per ECTS participants are asked to pay 300,- CHF, 850,- CHF or 1250,-CHF, respectively)</p>	SSPH+ PhD Students	30.- CHF	PPHS PhD Students	30.- CHF	External MD/PhD Students	300.- CHF	External Academics	850.- CHF	Other Participants	1250.- CHF
SSPH+ PhD Students	30.- CHF										
PPHS PhD Students	30.- CHF										
External MD/PhD Students	300.- CHF										
External Academics	850.- CHF										
Other Participants	1250.- CHF										
Registration	Please register online on our website										
Deadline	25 October 2020										
Max. Attendance	20
